

WHAT IT MEANS TO BE A GOED MEMBER

As a proud member of GOED, we're part of a global community committed to making high-quality omega-3 products to improve public health.

Our GOED Membership means we are:

FOCUSED ON QUALITY

We follow GOED's Monograph — the global benchmark for EPA and DHA omega-3 quality. That means our products are made to meet high standards for safety and integrity. GOED also randomly tests omega-3 member products sold around the world, providing an extra layer of confidence that what's on the label matches what's in the bottle.

UP TO DATE ON THE SCIENCE

GOED maintains the world's largest compilation of clinical research on EPA and DHA omega-3s. That means we have direct access to the latest credible science, which guides our product development and helps us educate the public with accurate, science-based information.

INFORMED ABOUT REGULATIONS & TECHNICAL ISSUES

Global regulations and technical requirements for supplements and foods change constantly. Through GOED, we stay informed about new labeling or safety regulations and technical issues of importance — so we can keep offering products that meet the latest requirements.

USING THE GOED PROUD MEMBER LOGO

The GOED Proud Member logo represents our commitment to the GOED Monograph and the high-quality standards associated with it. The logo, on GOED member products and marketing, makes it easier for consumers to identify companies that have made such a commitment.

BEING A GOED MEMBER REFLECTS OUR COMMITMENT TO OUR CUSTOMERS

We prioritize product integrity because we believe in and understand the health benefits of EPA and DHA omega-3s. We know the latest requirements for selling our product globally. And we're working with others in the industry to build a better, more trustworthy future — for this category, and for your health.
