

	<b>Science Committee Meeting Agenda</b>	Wednesday, November 1, 2023
	<b>Start Time:</b> 2pm UTC Check for your timezone <a href="#">here</a> . 7am PDT / 10am EDT / 4pm CET / 11pm JST	
<b>Conference Call #:</b> See Zoom Information in Calendar Invite		
Chair: Theresa Jahn GOED Lead: Kaitlin Roke		
<h2>Agenda</h2>		
Item	Responsible	
Hello and round of introductions as needed. Updates to share? Upcoming conferences / trade shows / meetings that those in the group are attending?	All All All	
As per Science Committee member request, we will use the November 1 meeting to have a group discussion.  Committee members are interested in discussing forms of EPA and DHA. Below are ideas for the discussion. We circulated the <a href="#">article</a> that Harry Rice and I wrote and published in the GOED Current earlier this year for review and consideration.  <i>We are looking for feedback and contributions from the group for this discussion.</i> <ul style="list-style-type: none"> <li>• Difference / similarity between EPA and DHA from: fish vs. algae vs. other sources?</li> <li>• Differences in effect between EPA and DHA forms: TG vs. EE vs. PL vs. other?</li> <li>• Who does this message need to be communicated to? Internal within companies? External to consumers?</li> </ul> If you come across any resources on these topics that may benefit the group, please share them. <ul style="list-style-type: none"> <li>• GOED Member to present ideas for new scientific study to address the differences between EPA and DHA forms. Requesting feedback and input from the committee.</li> </ul>	Theresa Jahn and Kaitlin Roke - with contributions from the group.	
<i>Recently published journal articles to be attached as a separate document alongside the meeting minutes</i> <i>List of upcoming conferences and events to be attached in meeting minutes</i>	Kaitlin Roke Kaitlin Roke
